What people are saying ...

"Stop The Spread is a great initiative that has given us a lot of confidence as the kids return to school. The parents really appreciate having the station as they come in. Being so user friendly and positive, the stations really are encouraging the kids to wash their hands regularly. Thank you so much."

Iain Gunn, Headteacher, St Peter's Primary School

"We cannot tell you what a life saver the hand wash station has been. It has given all of us so much protection and confidence to carry out our work during this difficult time. Thank you."

Codie Jarvis, Manager, Harpwood Care Home

"On behalf of all the team at SJE, my heartfelt thanks goes out to Danny and the Lucas team. I cannot express my gratitude enough. SJE received a Lucas Stop the Spread handwash station on the morning of 20th May, which takes pride of place in SJE's foyer area at our head office. Which I must say looks the business! Which staff members can use as they enter and leave the premises. A fantastic initiative, thank you"

James Knott, Safety Manager, SJ Eastern

"One step closer to seeing emergency patients. Thank you so much for helping us keep our patients safe. The hand wash stations are amazing. Thank you"

Donna Barnham, Practice Manager, Calm & Gentle Dental Practice

"As a business owner, my biggest concern was obtaining essential cleaning products to keep our staff safe post the Covid 19 lockdown. The Stop The Spread hand wash station has given us an almost ongoing supply of hand sanitiser for the next year and beyond with at least with over 8000 doses available from the free 5 litres that comes with this amazing initiative"

Sam Lawrence, Owner, BOXD LDN

"You have transformed our footfall and customer confidence."

Nigel Turner, Manager, Sainsburys Local

"To help us comply with our obligations under the new construction industry site operating procedures, these Stop The Spread hand wash stations have been fundamental in helping us protect our project teams and site operatives."

Oliver O'Shea, Senior Project Director, ISG

"Our Stop The Spread handwash station has allowed us to trade seamlessly during the Covid 19 lockdown enabling us to offer key workers an ongoing all important service for their vehicles, keeping both them protected to continue carrying out essential work and keeping our service staff safe at work."

Stephen Garlick, Owner, Stevenson's Mercedes Benz

"The fleet of hand wash stations for our project are an essential tool in our site operating procedures to maintain safe working on site."

Simon Frawley, Project Director, Sir Robert McAlpine
